

MONTH	October				November				December				January
TASKS↓ WEEK→	1	2	3	4	1	2	3	4	1	2	3	4	1
Documentation of Project Inputs													
Determining the Problem													
Research About the Problem													
Determining Sensor Type													
Determining the System Structure													
Block Diagram													
Feasibility Report													
Circuit design and component selection													
Theoretical Design Report													
Purchasing of Materials													
Making a Prototype													
Testing And Confirming The Device													
PCB design and construction													
Final Report and Project Presentation													

Elif Sezin Özyiğit	
Abdurrahman Üzüm	
Not-Completed
